2015-2016 Black Mold

An air quality test was conducted in December 2015 testing positive for Black Mold in:

- ❖ Administrative Offices
- ❖ Students Dorms
- ❖ Student Class Rooms
- ❖ Kitchen Areas
- ❖ Walls/ceilings contained mold spores

The Department of Administrative Services (DAS) coordinated an immediate clean and repair of:

- ❖ Clean Visual Mold (clean existing surfaces, remove and replace ceiling tile as needed)
- ❖ Clean Duct work
- ❖ Repair Air Handler Sensor in Dorm Area

The following assessment was conducted to identify other conditions in the building that contributed to the black mold:

- ❖ Outdated heating and cooling system
- ❖ Corrosion and deterioration of pipe/valve system through the facility

Total Cost to Clean: \$150,000

In 1967 the legislature passed what is now known as Iowa Code Chapter 80B, which created the Iowa Law Enforcement Academy and the Iowa Law Enforcement Academy Council. Specifically, this code sets forth that the Academy must set standards, regulate law enforcement, and grant officer certification for persons who successfully complete training, as noted above. In the first three years, the Academy was under the auspices of the Department of Public Safety. However, in 1970, the Legislature made the Academy an autonomous department and placed it under the Office of the Governor, who appoints the Director.

The original Academy building (the current administrative building) was built on nine acres of Camp Dodge property designated from an Act of the U.S. Congress in 1969. The addition, built in 1974, houses the remainder of the Academy. Various remodels and updates have occurred over the years.
